BEFORE OPERATION – Important Product and Safety Information – **WARNINGS** – Personal Injury and/or property damage could result if not adhered to.

- ! **Warning** – Risk of electric shock, this pump is supplied with a grounding conductor and grounding type attachment plug. Connect only to a grounded, grounding type receptacle. Use of ground fault circuit interrupter (GFCI) receptacle is recommended.
- ! **Do not** cut off grounding pin or use extension cord.
- ! **Do not** stand in or touch water while plugging the pump in or during use.
- ! The CPU16 is thermally protected and will automatically shut off if reaching an overheat level. The pump will reset once cooled and continue to pump. Once water level reaches 1/8" level, unplug pump.
- ! Make sure discharge hose is free from kinks or obstructions.
- ! Keep strainer free from debris.
- ! Pump comes with snap on bottom strainer, if needed, removal allows pumping down to 1/8" level. Do not set in mud, cement, wood chips or silty areas.
- ! Pump is designed for mainly clear water. **Do Not Pump Flammable Liquids or Chemicals.**
- ! Do not disassemble pump. Voids warranty.
- ! Maximum liquid temperature should not exceed 104 F.
- ! Pump has not been investigated for use in swimming pool areas.

Simple to Operate

- Connect to discharge to standard garden hose of 25' or less is optimal, more will start to reduce pumping performance. Direct discharge to drain or away from water source.
- Place pump into water with strainer covered with water.
